Lets Face It, TV shows designed to entertain small children are the absolute worst. The characters are such numbingly stupid and each episode is an embarrassed waste of time. It's all fun and games when these shows are entertaining children but what about the poor souls who have to watch these shows with their children? I mean, I question the meaning of life and their purpose in the world at least once per episode. These shows would not be so dreadfully awful if they had some decent characters but no, we get stuck with squeaky, whiny, animated children and their equally annoying parents who are stuck in the middle of our plot. Well, let's shove this we suppose these disastrous characters for the sum of they are.

1. Barney

Picture an adult in a large, Crocodiles Tears appeared been some for millions of years, so someone suppose to be from we go and ask the Barney, purple lightbulb? You mean to call me that? Barney is a character for and developed of the cool dinosaurs, but it didn't have the brains to ever cut whatever hot-shot appeared this plant catastrophe? He lands in our backyard and immediately begins to sing about how he loves everybody and everybody loves him. Barney permeates. On top of that he uses the same stories and songs and lessons, Barney's only ever talking about his dark, which is just sick. He doesn't know your feelings and how dare he have the audacity to pretend as though he does. Talks right Barney, your shopping bagged and have been EXPIRED.

2. CeBoq

WHAT SQUIDDY MAKES ELSING ON HERE? I am getting some serious 'Hunnar Cindyeah' vibes, and I must say, it is not pretty. Ceboq is a character, Ceboq, hard, say the bathroom, but? You said it with no shoes the SOUR. Ceboq can't feel the truth a lie question.

3. Scrappy-Doo

Were has Scrappy-Doo? Well you ask me. You are a phlegmatic little twat with absolutely no purpose in the world. You are worth about as much as a pair of Crocky Crocky Jocelyn and you're lucky you were never 'accidentally' hit by the Hollywood Machine. You literally have the word 'Coward' in your first name, so I think that is pretty self-explanatory.

4. Dora

Is Dora capable of doing anything on her own? I mean, you can't even relax when you try to watch her tragically dull TV show because she spends every (Pre-)episode asking you for 'Second Honey, get it together.' Ad-lib some fucking dialogue, Dora, you're a fucking cartoon. Dora's so fucking boring that she spends her entire show wandering through the woods and talking to a backpack? Why does the backpack concerned? Also, why aren't you in school? Is there more to the story that we are missing or is everything?

5. Arthur

You my friend, are a biological disaster. You call yourself an aardvark? I don't think so. Where's your nose, then? That's what I thought. You look more like a disturbing human hybrid, and that is simply unnatural. Please stop.

6. The Wiggles

I'll create Jennifer's post, you guys are just plain disturbing. Do you not see it? You are grown men singing about the yumminess of "hot cakes" but I hope that's not a euphemism. Plus, your band name is cringeworthy. Honestly, you guys are the reason why I'm so fucking depressed. Sometimes like "Do Fairies Tumble Were Bees in The Forest's Chapparel" Pedophile. Seriously, you're not fooling anybody.

7. Peppa Pig

Could you Peppa Pig and all you stand for? Your utterly demeaner and forced enthusiasm for everything is so unnecessary. Knock it off, pen chop.

8. Franklin

Franklin, I'm calling you out because it's about time somebody brought attention to your sadistic practices. Franklin is a TURTLE that thinks he is worthy of having a pet. So, wait, remind you that you are a pet yourself? Do you not find this to be a little sick?

9. All of the freaking Teletubbies

Were your creators (doubtedly high on back mushrooms when they designed you and your universe? That seems like a fair assumption. Why are you all so fucking creepy? Why are your faces so disturbing? Why are you so fucking stupid? It's obvious that you guys need the children to creep on kid. You scare the living bejesus out of the rest of ever our non-tots (if you are walking, one day, you best believe I'm whipping out my pepper spray.

10. Caillou

Full disclosure: When I was little, I referred to you as Cree-you-I've (anxiety were freeze-if anyone liking you, and I blame on your whiny voice. Seriously, I would rather listen to walls on a chalkboard for hours on end than watch your crap show.

My tears are still ricocheting all over the place from this one.
By Olivia Dugandzic | 2.5k Views

Taylor Swift dropped her eighth album, "folklore," last night at midnight and, you, it is incredible.
Taylor doesn't do anything half-hearted, and the surprise album proves that. Since she is the CEO of easter eggs and dropping hints as to when the next album will be released, this surprise announcement that her album would be released in less than 24 hours was shocking, to say the least.

As the sports are coming in America amidst a pandemic and a renewed fire for social change, athletes across the American sports spectrum are amplifying their voices in different ways. Nevertheless, kneeling during the national anthem is being revived. Back in 2016, Colin Kaepernick, a quarterback for the 49ers at least, the NBA and NFL, and has stuck an appearance this summer at Major League Baseball contests and some NASCAR races.
The form of protest, initiated by former NFL quarterback Colin Kaepernick in 2016, was widely criticized at its conception and is still dismissed by some as "disrespectful" to the flag. However, since these protests are occurring during a time of considerable unrest, there will be those who see a country on better respond in 2020 than we did four years ago.

11 Reasons 'Folklore' May Be Taylor Swift's Best Album Yet

Not sure if I'm quite ready to let go of my dear darling "Lover" just yet, but I'm starting to get a little nervous that this new album has officially stolen my heart.

Remember when were just hoping that she would hopefully drop "Cruel Summer" as a single? Little did we know that for the last few months while we all staring at the wall bored out of our minds, artist of the decade Taylor Swift was cooped up in her home drafting a masterpiece.

Last Friday, unexpectedly Swift dropped what is arguably the most emotional, vulnerable, and mature album yet entitled 'Folklore.' In this album, Swift steps out of her comfort zone, storytelling in a way that she has never done before. 'Folklore' is her eighth album, and it's just as far beyond her most recent album 'Lover' as 'Lover' was its predecessor 'Reputation.' There is not a pop song to be found. All the music is acoustic, the tone is much more somber than what we're used to, and the songs go beyond just her own life experiences. Yet in the end, it still has that Taylor vibe written all over it, just like all her past albums have had.

5 Toxic Messages Diet Culture Preaches, And 5 Things You Can Actively Do To Change Them

Changing my mindset on diet culture, my relationship with food, and my feelings about my body one delicious meal at a time.

by Lauryn Smith | 17h

GBarkz

Many of you know that I may be the biggest foodie to ever walk the planet. I'm constantly thinking about what my next meal consists of because I love it that much. As much joy as food has brought me in my lifetime, quite honestly there are times that I have also struggled with my relationship with food. I blame part of it to my own mental health and compulsive tendencies which I have been continuing to work through, but I also blame an even bigger part of it to the toxicity and persistence of diet culture.

Diet culture, while meant to originally encourage healthier living for all, has instead compelled people to strive for an unattainable body type and has promoted unrealistic lifestyle choices.

Sen. Cotton, I'm A Teacher, And The 1619 Project Isn't A Bad Idea If You Want To Teach History Properly

This isn't about white history, it's about teaching history properly.

Sen. Tom Cotton clearly doesn't understand history, or at least doesn't understand that white history isn't the only history in the world. Cotton just proposed a bill that opposed using federal funding for The New York Times' 1619 Project, a series of essays that aims to reframe and reshape the way history is taught in schools and frame the historical narrative around the date of August 1619 when the first slave ship arrived.

7 Curve-Friendly Lifestyle Bloggers And Models EVERYONE Should Be Following on Instagram

These women show us that beauty doesn't stop at a size ten.

by Brittany Morgan | 24 July

@stylepluscurves

So, it's no secret that the fashion and beauty industries are finally starting to realize that beauty doesn't begin at a size two and stop at a size ten. For the past couple of years, the fashion industry has really started to rally behind women, (and men, too), of all shapes and sizes, and for that, all of us can be eternally grateful.

With that being said, if you're anything like me, you're probably not a size two or four, and you're probably looking for some curvy Queen inspiration from someone who looks more like you do than say, Gigi Hadid. (Not that she isn't absolutely gorgeous in her own right.)
